600 x 600 DPI Imaging Technology

KIP 700m

The KIP 700m is the highest value wide format multifunction system in the world. It sets new standards for professional quality at a breakthrough value performance level.

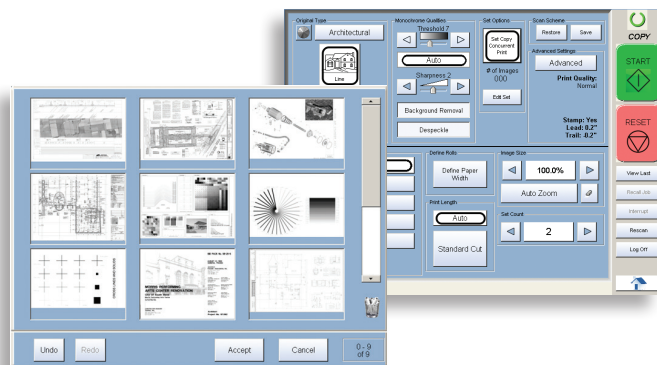

KIP 700m Precision Design

The 700m delivers fast and accurate copies and prints using toner based imaging technology that produces UV stable prints. 100% toner efficient KIP High Definition Print Technology ensures rich blacks and smooth gradients. Superior print, copy and scan resolution captures fine details with remarkable tone clarity, keeping reproductions true.

- ✓ Premier Performance & Quality
- ✓ Smart Eco² Design
- ✓ Colour Touch Controls
- ✓ High Definition Print Technology
- ✓ 100% Toner Efficient- Zero Waste
- ✓ Energy Star Qualified System
- ✓ Recycled Paper Approved
- ✓ Components 97% Recyclable

KIP 700m Touchscreen Printing

KIP 700m provides the power of touch controls to view, scale, organise and print file sets from USB drives, CD's DVD's and network locations. Total operator efficiency is achieved through use of the KIP 700m central touchscreen, the intuitive interface that displays all system control settings on one screen to enhance productivity.

**The ultimate in copy, scan and print technology
is right at your fingertips.**

KIP 700m Print Management Software

KIP 700m systems include powerful print management applications and certified drivers that can be accessed from an unlimited number of seats. A full featured web based print management application utilises standard browsers to print to the KIP 700m via a corporate intranet or over the internet. A full featured PC based printing application is provided to submit jobs via networks or FTP sites with the same powerful feature set.

- ✓ KIP Cloud Printing Web App
- ✓ KIP Cloud Scanning Web App
- ✓ Web & PC Based View & Print
- ✓ Windows 7 Certified 32 & 64 bit Driver
- ✓ AutoCAD 2011 Driver
- ✓ Cost Reporting for all Functions

KIP 700m System Convenience

The compact design of the KIP 700m provides front access to the touchscreen, auto roll paper loading, system operation & copy/print delivery.

Front System Access

- ✓ Walk-Up Operational Convenience
- ✓ Auto Media Loading, 2" or 3" Core
- ✓ Front Print Delivery System
- ✓ On Screen System & Operator Guides

Ultimate Document Mobility

The integrated USB port provides convenient access to files stored on USB drives for instant viewing & printing. Originals may be scanned directly to a USB drive in a variety of file types, including multipage PDF, TIF & DWF formats.

- ✓ Conveniently integrated with KIP 700 touchscreen
- ✓ Print sets from & scan to integrated USB port
- ✓ Streamlines mark-up document workflow
- ✓ Colour scan with quality presets

KIP 700m Cost Reporting

Dependent on system administration preferences, detailed reports may be generated to include times, dates, user names, job names, media used and related costs.

KIP 700m Paper Versatility

The automated paper loading of the KIP 700 accepts up to a 150m roll of media (2" and 3" cores) up to 36" wide. An optional paper tray for standard sizes up to A2 is available to extend the range of print sizes that can be produced.

Paper Tray

KIP 700m Colour Direct

KIP Colour Direct software is the fast route to highly effective colour copying to inkjet printers, plus scan to network, USB and mailbox locations with total control directly from the KIP 700m touchscreen interface. KIP Colour Direct Scanning & Copying:

- ✓ Quality templates for different types of originals
- ✓ Scan to USB drives, FTP, mailboxes or network
- ✓ Supports selection of file formats (JPG, PDF, TIF, DWF)
- ✓ Image and output options (scaling, mirroring, etc.)
- ✓ Basic image enhancement options

Smart Eco² Design - Economical & Ecological

The Energy Star[®] qualified 700m employs adjustable sleep modes to keep power consumption to a minimum while providing fast print times to keep busy workgroups moving. High yielding, 100% efficient high definition toner delivers on the promise of maximum system uptime.

Environmental Responsibility
